Work Experience

Astroverse · Founding Product Designer
ScaleX (in-house product) · Jun 2024 – Present

- Designed the Kundli match as a trust signal: a score on every card plus **Top Picks**, three curated profiles a week that reach **1,300+ users a month**.
- Rebuilt Discover around curation, with daily like limits and a **Profile Quality Index** that lifts low-effort profiles instead of banning them.
- Designed face verification as a path to better matches, not a gate: **5,900+ users verified**, **62%** of starters complete it.
- Designed the Pro paywall, weekly to annual plans with Boost and Nudge bundled: **13%** of users who see it subscribe within 7 days.
- Launched **Veda**, an AI astrologer chat: session logic, monetisation A/B models and system prompt. **900+ users** in its launch month. Built a Claude vs Gemini comparison tool to choose the model.
- Find drop-offs in Mixpanel funnels and replays and turn them into Jira tickets, e.g. a **~95%** view drop after the third trait on the Kundli screen.
- Own the design system, UX copy and Hinglish notification voice.

Horocosmo · Product Designer
ScaleX client · Astrologer Astro Arun Pandit

- Built the entire UI foundation from scratch: visual language, components and core flows. The app reached **100K+ downloads** in its first month.

Landing pages · Product Designer
ScaleX clients

- Designed pages for Astrologer Arvind Sud's astrology reports, built to drive report purchases, and for BeerBiceps SkillHouse's Click offering.

Hucentric · UI/UX Designer
Design agency · Remote · Mar 2022 – Dec 2023

- **Wishup** (virtual-assistant SaaS, Lead UI/UX): redesigned the site around lead generation. Pageviews **+25%**, bounce rate **–15%**, **10%** lead conversion.
- **Vegapay** (fintech): brand identity website with style guide and motion graphics.
- Webflow sites for Sketchnote and Dexter Ventures, and IA and prototypes for Elevare Sport's AI cricket app.
